Spring 2021 Issue

A Virtual Experience

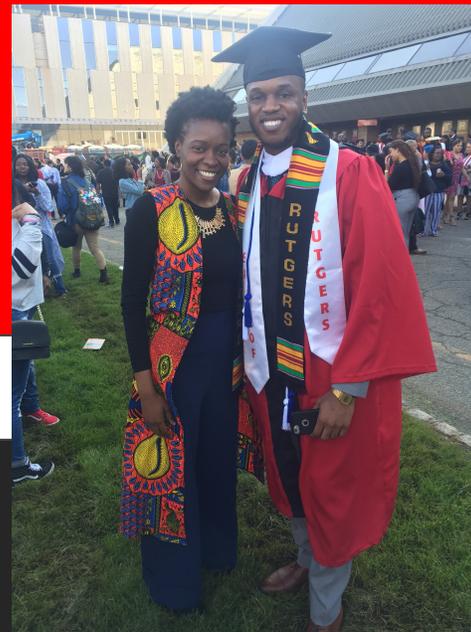

Feedback from Home by Dayhany Marte

Now that virtual life has taken over for the better part of a year, we asked one of our staff members and parent of a student how it has been in their opinion. Here is what she had to say:

Una de las cosas que me ha dado un poco de tranquilidad por tener a mi hijo en casa es que no tengo esa constante preocupación de que se pueda enfermar con Covid-19 en la escuela y puedo compartir más tiempo con él. Algo que ha sido difícil, es ayudarlo a que se concentre en sus estudios porque le hace mucha falta la interacción que tenía con sus compañeros y maestros. Los primeros meses de estar estudiando en la casa, fueron bien difícil para que se acostumbrara a tener la estructura y llevar el régimen de estar en la escuela. Ahora después de casi un año en la casa, las cosas se han hecho un poco más fácil pero ya los dos deseamos que las cosas regresen a su normalidad.

One of the things that has given me tranquility though this is having my son at home and not having a constant worry that he might contract Covid-19. We have been able to spend more time with one another. However something I find challenging is helping him concentrate on his studies because I can tell he really misses the interaction with his fellow classmates and teachers. The first few month of school from home were quite difficult for him to adjust to and develop a structure that was similar to the one in school. Now after such a long time at home, things have become easier but we are both wishing that things would get back to some normalcy.

"The best motivation is self-motivation" - Jim Rohn

What's the scoop...

Spring 2021 SAS EOF News

We strongly encourage you to visit our website and check out all the events that are happening through our office. We have many financial aid workshops coming up as well and major events like our senior recognition ceremony.

Remind Students to check emails daily since our office sends opportunities that can range from scholarships to internships. Please continue to stay safe!
